

## THE DAY'S DOINGS AT THE CAPITOL

### IMPORTANT BILL INTRODUCED IN THE SENATE.

**Mr. Chandler Wants the Government to Make Its Own Armor Plate—Secretary Gage Explains His Plan to the Senate—Washington Notes of Various Kinds.**

Washington, April 14.—Senator Chandler Tuesday introduced his bill empowering the secretary of the navy to take possession of the armor plates of the Bethlehem and the Carnegie companies. There are two of the bills, one applying to each of the institutions, the provisions being the same in both. Senator Chandler says that it is contemplated that only the Bethlehem works shall be taken, unless in case of necessity, when the Carnegie institution should also be seized.

The principal section of the bill authorizes and directs the secretary of the navy forthwith to take possession of such land, buildings and machinery as constitute the armor-making plant of the two companies. He is directed to hold and use such land, buildings and machinery for a period of time sufficient to enable said secretary to manufacture the armor plate necessary for the completion of the battleships Alabama, Illinois and Wisconsin, now in process of construction for the United States, and thereafter to return the possession of said land, buildings and machinery to said company. This seizure shall be deemed to be for the public use of the United States under an obligation to make just compensation therefor, in accordance with the fifth amendment to the constitution.

### HEARS FROM GAGE.

**Secretary Explains His Orders Issued to Customs Officers.**

Washington, April 14.—A letter from Secretary Gage was received by the senate Tuesday, responding to the resolution of inquiry as to orders issued to customs officers to delay liquidation of entries made of merchandise arriving after April 1 last. The secretary explains that the order is in accordance with authority conferred on him by law. Following the reading of the letter Mr. Vest of Missouri presented a resolution declaring that the order "is without authority of law, and in violation of the statutes and customs regulations governing the payment of import duties at the ports of entry where the same may be collected."

Mr. Davis (rep., Minn.) chairman of the foreign relations committee, gave notice that on Thursday next he would move that the senate go into executive session to take up the arbitration treaty.

Senator Morgan of Alabama concluded his long speech on the resolution declaring that a state of war exists in Cuba. He did not ask for a vote on the resolution, but announced that he hoped to secure a final vote at an early date.

The bankruptcy bill was taken up at 3 o'clock. Mr. Lindsay of Kentucky defending the measure against criticisms made against it.

### No Trouble in Hawaii.

Washington, April 14.—The Japanese legation has received telegraphic advices from official sources in relation to the recent deportation from the Hawaiian Islands of a number of Japanese immigrants which do not agree entirely in all details with the accounts already published in this country. It is also declared that while a man-of-war has been sent to Hawaii, this action has not been taken for the purpose of menacing the Hawaiian government, but simply to preserve order among the Japanese residents in the islands. At the legation the statement that the Japanese companies are attempting to colonize Hawaii is denounced as a flagrant and absolutely unwarranted falsehood.

### Amendments to Tariff Bill.

Washington, April 14.—Senator Nelson Tuesday gave notice of several amendments to the tariff bill. One of these abrogates after one year the Hawaiian reciprocity treaty. Another declares trusts or combinations for the restraint of trade or to enhance the market price of imports or manufactures by two or more persons, either one of whom is an importer, to be "against the public policy, illegal and void," and provides for the punishment of the offense by both fine and imprisonment. A third amendment authorizes the president to suspend by executive order the collection of all duties levied upon any imported article the home product of which is controlled by a trust.

### Will Pass Appropriation Bills.

Washington, April 14.—An agreement has been reached among the leaders of the various parties in the senate under which the appropriation bills which failed to become laws at the last session of congress will be taken up and passed. The Indian bill will be called up at once, and as soon as it is disposed of the agricultural and sundry civil bills will be considered. The general deficiency bill has not yet been reported. The Indian and agricultural bills are not expected to provoke much debate, but there will in all probability be considerable discussion of the sundry civil bill.

## THE PLANS OF THE GREEKS

May Try to Force Passage Of the Dardanelles.

London, April 14.—A special dispatch from Constantinople alleges that the Greek plan is to stir up a rebellion in Macedonia, to blockade Salonica and to attack Prevesa (the town on the Turkish side of the entrance of the gulf of Arta), and Smyrna by the sea, as well as to endeavor to force the passage of the Dardanelles with the torpedo division of the Greek fleet.

The Athens correspondent of the Daily Chronicle says that compromises are evidently in the air. Turkey is showing herself exceptionally friendly to Greece, and it is believed in diplomatic circles that the two parties, if left alone, would settle the affair in as many days.

Advices from Epirus represent the situation there as a reign of terror. The Turks are laying the country waste with fire and sword. The vall of Janini has ordered every Christian to give the Turkish army ten sheep and a bullock.

A dispatch to the Daily News from Constantinople says that the Turkish version of the fighting at Balino has been published in the newspaper Ikdam, which states that 5,000 Greek troops were allowed to attack the place. Their retreat was then cut off and the Greeks were finally worsted, leaving 2,000 dead and dying upon the field. The Ikdam adds: "Out of pure magnanimity the Turks took no prisoners."

Edhem Pasha, the Turkish commander in chief in Macedonia, the dispatch adds, has reported to his government that the Greek insurgents attacked the Turks simultaneously at nine different points. He further says they were speedily surrounded, that several prisoners were taken and that the latter have been sent to Salonica. He concludes with stating that the loss of the insurgents was heavy and that of the Turks trifling.

### Return to Greek Territory.

Trikkala, April 14.—The insurgent bands have returned to Greek territory, with the exception of one or two, which are composed of only a small number.

### ADDRESS TO THE POPULISTS

Senators and Congressmen of That Party in Joint Caucus.

Washington, April 14.—An address on the "Situation and the Course That Duty Demands" has been issued by a joint caucus of Populist senators and congressmen.

The address declares that never in the history of the party has there been such cause for hope on the part of those who are seeking reforms along financial and industrial lines as at the present time. "To the People's party," it is asserted, "is due the credit for the bolt in the Republican party convention at St. Louis and for the revolt of the Democratic party that rescued the Chicago convention from the clutches of the bondholding and banking combine." An appeal is made to the reform papers to join in the effort to push forward the cause of the party and to strengthen and build it up.

### Skeleton in the Ruins.

Knoxville, Tenn., April 14.—Tuesday's search in the ruins of last week's conflagration revealed money, pistol, watches and one skeleton of a man, thought to be either G. M. Rogers of Pulaski, Tenn., or S. E. Williams of Springfield, Mass. The opinion is prevalent that at least half a dozen men perished, but it will take another day to remove the debris. Among the mysteriously missing is E. H. Tracey, supposed to be from Pittsburg, Pa., for whom there is much mail and telegrams here.

### Battleship Oregon Runs Aground.

Washington, April 14.—Word has reached the navy department from Commander Whiting, in charge of the Puget Sound naval station, Washington, that the battle-ship Oregon had grounded while approaching the dock. The dispatch added that the vessel had bent her frames (or ribs) and bottom plating in the vicinity of the forward turret. It is believed the damage is not serious. A thorough investigation has been ordered by Secretary Long to be made by Naval Constructor Capps.

### Democrats Gain in the East.

New York, April 14.—As a result of a decision of the Supreme Court handed down a few days ago, declaring unconstitutional the election law passed by the legislature last spring, municipal elections which should have been held in March were held Tuesday in a large number of cities and towns in New Jersey. Complete returns show more or less democratic gains throughout the state. There was little excitement and a light vote was polled.

### Thirty Day Racing Bill.

Springfield, Ill., April 14.—It has been decided to report to the house a thirty-day racing bill, with a pool-selling provision, but barring foreign books.

## OMAHA IS DELUGED BY THE HIGH WATER

### FLOODS SWEEP THROUGH THE NEBRASKA CITY.

**People Flee For Their Lives—Fears That the River May Turn Into Its Ancient Bed Again—Relief Work in Tennessee—Some Other Storm News.**

Omaha, Neb., April 14.—The Missouri is a great lake at Omaha, and rising hourly. Over 100 families have been forced from their homes in the lowlands. Everything was abandoned to the flood. It first drove out of their houses Erickson, Larson and Milhouse. It swept a quarter of a mile further down and there took in a dozen cottages. The stream then went on farther south a distance of half a mile and struck another little settlement. All the people were forced to abandon their houses in haste, some of them with only their night clothes on. Many narrow escapes from drowning are recounted, but so far as is known no lives were lost.

The corporations whose interests are threatened put hundreds of men to work on the dikes, but the water broke through, and it looks as if it would be the worst flood in the city's history.

The flood is pouring in upon the lowlands of the East Omaha bottoms in a stream that is estimated to be 2,000 feet in width. It is sweeping southwest from a point opposite the north end of Sherman avenue. It runs in that direction to a point that would intersect Twentieth street if extended. Then it switches southeast and back to Sherman avenue. This point is about a mile south of where the water leaves the old channel. At that point the flood divides. One branch cuts directly eastward and pours into Florence lake. The mass of water in the lake has broken open the levee that was built to separate it from Cut Off lake. This is the old channel of the river, and many fear the turbulent Missouri will come back to its ancient bed.

The second branch of the flood runs toward the south, just east of Sherman avenue, at a point a mile and a half or two miles north of the point where the Sherman avenue car line turns into Ames avenue. It is following the line of Sherman avenue, although it diverges somewhat toward the east, sweeping over plowed and planted fields, driving residents from their homes in North Omaha, tearing up fences and threatening the houses that stand from three to four feet deep in the water.

In the last twelve hours Cut Off has risen almost two feet. If this rate continues the lake will overflow its southern bank and the entire southern portion of East Omaha would be threatened with a disastrous flood.

### DOWN THE RIVER.

**Energetic Steps Being Taken to Relieve Flood Sufferers.**

Memphis, Tenn., April 14.—The river continues to rise south of Vicksburg, and the swift current is throwing the waters against the Louisiana levees with enormous force.

At Helena the river is declining at the rate of two-tenths of a foot daily. The refugees are flocking into Helena by every boat. A conference between the federal officers and local relief committee was held, so Lieut. Rowan might secure all the facts regarding the situation there. At the meeting it was estimated that of the 25,341 people inhabiting the county 7,000 lived in the city and one-half of the remainder lived in the territory now inundated. The population of the overflowed territory was put down at approximately 9,000. Of these from 2,000 to 3,000 are now in Helena and scattered along the foothills for a distance of fifteen miles. There are 1,000 refugees at Old Town ridge. The relief committee reported that 6,000 people were dependent upon aid. Three thousand dollars weekly was the sum decided upon to take care of these people.

### The Limit at Davenport.

Davenport, Iowa, April 14.—The Mississippi is within less than two feet of the danger line at this point, and is rising at the rate of several inches daily. Merchants are moving goods from cellars in the business district and district below the city, and in the Rock river and Iowa river valleys a large area of lowland is under water, while families are moving back from the river to escape the advancing flood.

### Situation at Moline, Ill.

Moline, Ill., April 14.—The river is still rising here, and the danger of the Moline water-power wall is so imminent that the government has taken an emergency action to protect it. The wall, which was built many years ago, has been weakened, and the water is now sweeping through all along its length. Several factory basements are already under water, and considerable apprehension exists regarding the flood.

### Burlington Still in Danger.

Burlington, Iowa, April 14.—The river is again rapidly rising, and is now ten feet six inches above normal. A deluge of rain fell Monday night and more is expected. The residents of Huron island have moved to the shore, as that island is nearly under water.

## J. O. RAYMOND DIES AT STEVENS POINT

### WELL KNOWN MAN IS CALLED HOME.

**Had Served in the Legislature and Was a Member of the Board of Normal School Regents—Two Rivers Workmen Go on a Strike—Wisconsin Man Slugged.**

Stevens Point, Wis., April 14.—[Special]—James O. Raymond, a member of the board of normal regents, and who served many years in the assembly and senate, died this morning at his home in this city.

### Strike at Two Rivers.

Two Rivers, Wis., April 17.—[Special]—All the employees of the Two Rivers Manufacturing Company went out on a strike this morning, and refused to accept a cut of ten per cent. Wisconsin Man Slugged.

Anderson, Ind., April 14.—[Special]—E. E. Lenna of Stevens Point, Wis., was sand-bagged and robbed of \$400 last night. He is in a critical condition.

### Insolvent for Twelve Years.

Milwaukee, Wis., April 12.—There were interesting revelations in the circuit court here Tuesday concerning the manner in which the South Side Savings bank was conducted. The bank collapsed in July, 1893, but it was shown that it was really insolvent as far back as August, 1881. C. G. Wild, who went through the books with an expert, gave evidence that proved that it was not the panic that caused the bank to fail, but dishonest banking from the very start.

## MAY SHUT THE UNIVERSITY

Trustees of the Illinois Institution Face a Dilemma.

Chicago, April 14.—The University of Illinois may be forced to close its doors before the completion of the school year. It is without sufficient funds to meet its current expenses. Practically all of its cash and securities are affected by the failure of the Globe savings bank. The trustees have no authority to borrow money, and warrants may not be legally issued upon the treasurer unless he has funds in his possession with which to pay them.

When Elbridge G. Keith is qualified today as the new treasurer of the board and makes his demand upon Charles W. Spaulding for the funds of the university the fate of the institution will be decided. If sufficient money to pay university warrants is turned over to Mr. Keith present financial difficulties will be overcome. If no available funds come into his possession there will be but one way out of the dilemma—either some person must be looked to to carry the financial burden until such time as the trustees may be able to provide money or the state must act to prevent the closing of the school.

The Illinois Home for Female Juvenile Offenders at Geneva is another institution connected with the failure of the Globe savings bank through C. W. Spaulding. Spaulding has been treasurer of the home since May 12, 1896, and the current funds of the institution have since then been on deposit with him. At the time of the bank's failure he had in his hands about \$7,000, the amount which remained from the state appropriation of \$15,000. The managers of the home are now wondering whether they will ever get it back and how they are to pay running expenses.

### As to University Funds.

Springfield, Ill., April 14.—Senator Dunlap says that he will offer a resolution in the senate calling for an official investigation in relation to the funds of the University of Illinois.

### Legislature of Michigan.

Lansing, Mich., April 14.—Several days ago Gov. Pingree vetoed the Flint charter bill. Tuesday the bill was passed over his veto in the house. This body also passed the bill providing that after Jan. 1, 1899, all county officers, save sheriff, shall be paid a salary, to be fixed by the supervisors, and that all fees provided by the statute be covered into the county treasury.

The senate passed a joint resolution to submit to the people a constitutional amendment requiring an educational qualification of electors. The same body defeated resolutions submitting amendments to make the regents of the university subject to legislative direction, and to fix a salary of \$600 per regular session for legislators.

### Collision at Lebanon, Ind.

Lebanon, Ind., April 14.—A collision occurred at the crossing of the Cleveland, Cincinnati, Chicago & St. Louis and the Chicago & Southeastern railroads Tuesday afternoon. Big Four passenger train No. 6 was several minutes late and was pulling out of the station at a high rate of speed. As it neared the crossing the Chicago & Southeastern express came upon the crossing, directly in front of it. The express was pushing a freight car in front of the engine. This car was smashed to splinters, and the Big Four engine was totally wrecked. The passengers escaped with a severe shaking up.

## THE FUNERAL OF MR. VORHEES

Body Lies in State at the Indiana Capital—Is Taken to Terre Haute.

Indianapolis, Ind., April 14.—The body of former Senator Daniel W. Voorhees was received by the citizens of his own state Tuesday with many manifestations of sorrow. The funeral party arrived here at noon, and the body was taken at once to the state capital, where 15,000 persons viewed the remains. The choir from St. Paul's Episcopal church, stationed in the capitol balcony, sang "Nearer My God to Thee" as the coffin was carried into the building and placed under the great dome. The common people, upon whom Senator Voorhees had exerted great influence, turned out en masse. George H. Thomas post, Grand Army of the Republic, also called. At 4 o'clock Terre Haute friends took charge of the body, and the funeral party went on to that city.

### LIES IN STATE.

Thousands of Citizens of Terre Haute Pay Honor to His Memory.

Terre Haute, Ind., April 14.—The body of ex-Senator Voorhees arrived here at 7 o'clock Tuesday evening, and fitting honor was paid the memory of the deceased statesman.

Members of the Jackson Club and the Bar Association met the train, and a large concourse of citizens joined the procession to the Terre Haute House, where the body lay in state and was viewed by as many persons as could conveniently pass through the large room.

The members of the family yielded to the request of the Masons for a Masonic burial. At first the offer had been declined on the ground that Mr. Voorhees had not been an active Mason for many years, but so insistent were the Masons that the consent was granted after leaving Indianapolis.

The funeral services will be held in St. Stephen's Episcopal Church, which Mr. Voorhees joined many years ago. The pallbearers have not been selected, but they will be Masons who were especially close friends of Mr. Voorhees.

## INVESTIGATE LEGISLATORS

Sensational Hints of a Corruption Investigation Are Made.

Indianapolis, April 14.—An investigation into the conduct of certain members of the legislature is likely to be made. Sensational charges of corruption have been hinted.

The matter comes out through the state by special legal council filing a petition in the federal court asking Judge Woods for permission to bring suit against the Vandalia Railroad Company to collect \$2,000,000 alleged to be due the state under an agreement in a charter of the railroad company to pay into the state for the benefit of the common school fund all over 10 per cent of its net earnings. The petition contains the statement that it will be necessary for the court in which the suit is finally tried to make an investigation of the conduct of some members of the legislature with a view to discovering whether the failure to enforce the claim before this time has been the result of corruption.

### MR. BRYAN THE CHIEF GUEST

Big Banquet in Washington—Anniversary of Jefferson's Birth Celebrated.

Washington, April 14.—The 154th anniversary of Jefferson's birthday was celebrated Tuesday night at the Metropolitan hotel by a subscription dinner, given under the auspices of the National Association of Democratic Clubs. William J. Bryan, of Nebraska, the late Democratic candidate for President, was the guest of honor. Senators, representatives and others conspicuous in the councils of the Democratic party were present; many of them were from a distance. Covers were laid for 200, and many were denied seats for want of space at the tables. Mr. Bryan made a lengthy speech in response to the toast "Thomas Jefferson."

### Assigned to Their Pulpits.

Geneseo, Ill., April 14.—The Illinois conference of the United Evangelical Church closed its annual session Tuesday. The college site propositions from Fairview, Freeport and Highland Park were referred to the board of education. Rev. John Schneider of Chicago was appointed agent for the purpose of assisting the board in working up the college project. Full appointments of ministers were made out.

### Final Action Is Postponed.

Springfield, Ill., April 14.—The house took up the judicial apportionment bill on third reading. Speeches were made against by Craig, McGee, Gaines and Salmons, democrats, and Bailey, Sharrock and Torrence, republicans. The bill was advocated by Cochran, Needles, Sherman, Allen of Vermillion and Selby. Cochran moved to postpone action until to-day at 11 o'clock. This was carried.

### Satelli Would Be Pope.

Rome, April 14.—A meeting of Cardinals, convened by Mgr. Satelli, has just been held here. Its object is unknown, but it is common knowledge that Satelli wishes to be a candidate for the Papal chair when it is vacant. Leo's health is seriously weakening.

## HURD CIGARET BILL TO BECOME A LAW

### COMMITTEE REPORT THE MEASURE FAVORABLY.

**Prohibits Sale of the "Coffin Nails" in the State—University Appropriation Bill Amended—Assembly Passes the Bill Authorizing Water Companies to Sell to Other Places.**

Madison, Wis., April 14.—[Special]—The Hurd bill prohibiting the sale of cigars in Wisconsin was favorably reported to the senate this morning by the committee on public health.

An amendment was adopted by the senate to the university appropriation bill providing that one thousand dollars should be apportioned to the law school library and two thousand to the university summer school for teachers.

The assembly, under suspension of the rules, passed the Bullard bill authorizing cities and villages owning their own water works to furnish water supply to adjacent towns.

## THE CUBAN PUBLIC OPINION

La Lucha Anticipates No Trouble Between United States and Spain.

Havana, April 14.—La Lucha, in an editorial, says: "We have been waiting for a year and a half for a break in the relations between Spain and the United States, due to the political excitement. But now the coolness of both governments has quieted public opinion, and the fear of a rupture of amicable relations seems far off. The policy of the cabinet at Washington is firm and energetic in compelling Americans to observe neutrality in Cuban affairs. Spain, on her side, accedes to all the claims made in friendly notes regarding American citizens, and has thus nullified in the United States the propaganda of the anti-Spanish and the American government has quieted the violence of the press and the senate."

The Union Constitucional also treats the question editorially in the same tone, and says: "An offer of friendly intervention on the part of the American government cannot be ill considered." In conclusion, the Union Constitucional expresses the hope that the United States will give proof of its friendship for Cuba.

## MR. JOHN BULL IS WORRIED

Bering Sea Controversy Threatens to Break Out Again.

London, April 14.—A representative of the Associated Press has learned that communications are passing between Washington and London with reference to the Bering Sea. The greatest secrecy is observed here on the subject. The Pall Mall Gazette refers to the reopening of this question as another "lesson of the weakness of arbitration," and says it fails to see how Great Britain can be expected to antagonize a revision of the awards; adding that they cannot be tossed aside "because one party does not get its full demands."

The Globe remarks that there is no doubt Lord Salisbury will refuse to reopen the Bering Sea question until the stipulated date and until Canada's claims are satisfied.

Mr. Henry White, the United States charge d'affaires, has had a conference with the foreign office on the subject.

### President Asked to Attend.

Washington, April 14.—A delegation representing the Tennessee Exposition called on the President Tuesday formally to extend to him and his cabinet an invitation to be present at the opening exercises at Nashville on May 1. The President explained that his engagement to be present at the dedication of the Grant Memorial in New York on the 27th might interfere with his being present on the opening day. In case circumstances prevented his attending the opening, he said, he would be delighted to attend later with the members of the cabinet. He will announce his decision in a few days.

### English Bimetallists Approve.

London, April 14.—The appointment of Senator E. O. Wolcott, of Colorado; Charles J. Paine, of Boston, and ex-Vice President Stevenson as commissioners to an international monetary conference, under the act approved March 3 last, "for the promotion of an international agreement for bimetallism" has been received with the greatest satisfaction by the London bimetallists, who anticipate solid progress through their efforts, although Mr. Stevenson is unknown here as a monetary expert.

### Libel Bill Set Back.

Springfield, Ill., April 14.—Senator Lundin's bill to repeal the libel law was on Tuesday referred to committee, which probably means its burial, by a vote of 27 yeas to 18 nays. A motion to strike out the enacting clause of the bill, killing it there and then, was defeated by the narrow margin of two votes.

### Should Pay an Indemnity.

Washington, April 14.—The president has decided to recommend to congress an appropriation as indemnity for the killing by a mob of lynchers of three Italian citizens at Hahnville, La., August 8 last.

## CAN CATCH FISH THE YEAR ROUND

### NEW GAME LAW EXCEPTS LAKE KOSHKONONG.

Angling With a Hook and Line Is Permitted At Any Season Of The Year In That Body Of Water—The Other Points Covered By the Measure.

The new game law, which went into effect on April 10, makes a concession regarding Lake Koshkonong that Janesville people will appreciate. Hereafter it will be lawful to catch fish with a hook and line in that lake at any time during the year. The law was published in the official paper last Saturday and took up four columns of space. Its provisions cover the following points:

Section 1. The ownership of all fish and game is in the state.

Section 2. All rivers, lakes, etc., are inland waters, excepting Lakes Michigan and Superior and the harbors and bay immediately connected therewith, which are outlying waters.

Section 3. The close season in inland waters for black bass, Oswego bass or yellow bass is from March 1 to May 25. Penalty for violation of this section from \$10 to \$25 or ten days.

[Lake Koshkonong and some other waters excepted.]

Section 4. Brook trout or other trout unlawful to catch between September 1st and April 15. Penalty from \$10 to \$50 or thirty days, or both fine and imprisonment.

Traps and Snare Barred.

Section 5. Traps, snares, and nets cannot be used in any inland waters. Dip nets may be used in taking shiners, chubs, dace, suckers, sheepshead, dogfish, garfish, redhorse, sturgeon, catfish and bullheads in any stream not frequented by or containing trout. Spears may be used in the day time. Penalty from \$25 to \$100 to be paid, not to exceed ninety days.

Section 6. Angling or trolling, is the only lawful method of catching fish in inland waters. Penalty, \$10 to \$50 or from thirty to sixty days.

Section 7. Dynamiting fish is punishable by from \$25 to \$250, or from sixty days to four months.

Section 8. Fishing through the ice in inland waters. No person allowed to use more than five lines, one hook to the line. Fishermen cannot build houses over them while fishing. Penalty from \$20 to \$50 or thirty days.

Section 10. It is unlawful to fish within 100 feet of any fish way or to use poison, time, medicated bait, fish berries, or any other substance deleterious to fish life or which might attract fish in unusual quantities. Penalty from \$10 to \$50, or from thirty to ninety days or both.

Pike Weight Limit.

Section 15. It is unlawful to have in your possession any lake trout or whitefish less than two pounds undressed weight. (Except lake trout may be had in possession for sale not to exceed twenty-five pounds at any time.) Any whitefish or lake trout less than three pounds undressed weight. Penalty from \$25 to \$100 or ninety days.

Section 15 a. Unlawful to catch whitefish or trout by nets in outlying waters between October 1st and December 1. Penalty from \$25 to \$100 or ninety days.

Sections 16, 17, 18, 19, 20 and 8. Apply to Sturgeon Bay and Green Bay only.

Section 21. It is unlawful to kill deer from November 20 to November 1st of the next year. All the year except the first twenty days in November is the close season for deer, five days, to November 25th, given to sell the carcass. Unlawful to hunt with dogs or at night or in any stream or lake or by any trap or to use a light or have in possession the skins in it red coat or any fawn in it spotted coat.

No person shall kill more than two deer, except any resident or settler shall have the right to kill at any time during the open season any deer which is to be consumed by his own family or neighbor and not for sale. Penalty for all of section 21 from \$25 to \$100 or two to six months or both.

Field and Water Shooting.

Section 22. It is unlawful to kill woodcock, partridge, pheasant, prairie chicken, grouse, plover or snipe between December 1st and September 1st. Penalty from \$10 to \$50 or remain in jail until fine is paid, not to exceed ninety days.

Section 23. It is unlawful to kill wild ducks or geese between May 1st and September 1st. Mallards, teal and wood ducks cannot be killed between December 1st and September 1st. Swan cannot be shot at any time. Penalty \$20 to \$50 or to remain in jail until paid, not to exceed three months.

Section 24. No duck or goose or other aquatic fowl can be hunted between sunset and sunrise. Penalty \$25 to \$100 or in jail until fine is paid, not to exceed sixty days.

Section 25. Prohibits snare boats, rafts, etc. Penalty \$10 to \$50 or thirty days.

Section 26. Prohibits spring guns, snares, etc., for any animal or bird mentioned above. Penalty \$10 to \$50 or sixty days.

Section 27. Quails cannot be killed until 1901, A. D., or Mongolian, Chinese or English pheasants. Penalty \$50 or thirty days.

Section 28. Ducks cannot be snared at all. Penalty \$50 to \$100 or ninety days.

Section 29. Prohibits pivot or swivel guns.

Section 30. Prohibits killing whip-

porwills, blue birds, finches, thrushes, larks, robin, turtle dove or other harmless birds. Blackbirds, English sparrows or pigeon for trap shooting excepted. Penalty \$50 or thirty days.

Sections 31 to 33. Prohibits destroying any bird's eggs excepting crows and English sparrows. Penalty (small boy attention) \$5 or ten days. Ferrets cannot be used to hunt rabbits. Muskrat houses cannot be destroyed. Otter, marten or fisher cannot be caught between May 1 and October 31. Penalty \$10 to \$25 or thirty days.

Sections 36-47 apply to hotels, etc. It is made the duty of constables, sheriffs and other peace officers to destroy any boats, deer lamps, seines and about forty other articles enumerated, which are called public nuisances. The game warden is required to sell venison, birds or fish which he has seized, to the highest bidder.

The law has fifty-one sections, all of the important one of which are contained in this article.

### "CUCKOO" COLLINS FOUND.

In Jail in Sacramento, Cal., He Confesses That He Is Thief.

In an interview published in the Sacramento Bee, James Collins now in jail in that city acknowledges that he is "Cuckoo" Collins wanted by the police of Denver for the robbery of the jewelry store of Gottlieb & Sons, on March 9, 1886.

The robbery was one of the most daring or record, a man having no confederate going into a store and boldly escaping with a tray containing \$10,000 worth of diamonds.

Collins tells of his movements after his flight from Denver. He relates his adventures in Australia, his fields and tells how a change in the charter of a vessel on which he was steward saved him from being captured by the Pinkertons at Honolulu.

James Collins' home is at Edgerton, Wis., though he has spent little time in the state during the past few years. He is a professional sprinter and is most widely known through his participation in championship foot races. He has several times entered for the championship of the world and has always had a mark near the lowest. By reason of his connection with contests in which fraud was alleged, he has several times gotten into trouble and about four years ago was shot in the east by one of his backers who alleged Collins had betrayed him. "Jim" Collins is well known throughout Wisconsin and his name is familiar wherever sprint running is known.

"Collins was wanted," said William A. Pinkerton, when shown the above dispatch by a Chicago reporter, "but he did not avoid capture by our people at Honolulu, for the simple reason that no Pinkerton agency men were in that city. Collins did some clever work in accomplishing that robbery. He snatched a tray containing about thirty rings worth all the way from \$25 to \$250 each, and got away. He has a reputation as a foot racer and wore good clothes. We were called into the case immediately after the commission of the crime." Local police officials say Collins never operated in Chicago.

### MUSICAL CLUB IN SESSION

Program Was Made Up of American Composers.

### SHE FALLS HEIR TO WEALTH.

Mrs. James Mullen of Beloit, Receives a Large Sum of Money.

Mrs. James Mullen of Beloit has fallen heir to a sum of money by the death of her brother at Brooklyn, N. Y. His name was Michael Hollihan and for forty years he was a bookkeeper in the Navy yard. After the death of Mr. Hollihan James Mullen went to Brooklyn and laid claim to the estate of his mother's relative. He engaged the services of Ingle Carpenter, a former Beloit college student and a son of J. M. Carpenter of that city, and by his aid the estate was settled in Mrs. Mullen's favor.

## A NEW 'PHONE LINE TO BE BUILT SOON

### CONSTRUCTION PLANS ARE NOW BEING MADE.

The American Telephone and Telegraph Company Will Run a Long Distance Wire Through Janesville—Will Be Put Up Chiefly to Accommodate "Through Business."

Janesville people can soon talk over another long distance telephone line and H. V. C. Sherer, foreman of the construction department of the American Telephone and Telegraph company, is now planning to begin the work. This company is the great long distance company which is closely allied with the Bell 'phone. It has eighty wires between New York and Philadelphia and has about gridironed the entire east. It also has lines from New York to Chicago—at \$9 for 5 minutes talk, but utterly unable to accommodate the demands made upon it even at that rate—and is now to build from Chicago, via Janesville, Madison, Baraboo and La Crosse to Minneapolis. Madison is to be the construction headquarters for the south half of the work, and from that point Mr. Sherer will direct operations. He expects to have the line in operation by October. A lawful right-of-way will be obtained over the entire distance. Railway tracks will not be followed much, the wires being strung along the highways and across private property in nearly all cases. Permission will be obtained from public officials or property owners the entire distance.

Line to Follow Highways.

"Generally," said Mr. Sherer, "we follow highways, but where we can cut off corners or save considerable distances we obtain right-of-way over private property. The contract always gives us the right to 'construct and maintain.'"

The wire used will be of copper of about the size of an ordinary lead pencil. A perfect service is promised.

"When the line is completed," continued Mr. Sherer, "you will be able to talk with Chicago, New York, Boston, Portland, Maine and all principal intermediate points with as much clearness as you can from here to Milwaukee. You will be clearly understood if you use an ordinarily conversational tone. One needs to speak only slowly and distinctly. If he does that in a low tone almost a whisper, is loud enough."

Mr. Sherer says that exchanges will probably not be put in except at important points, the chief purpose of the line being to accommodate through business.

### ABOUT THE DATE OF EASTER

Why It Is Sometimes Early and at Other Times Late.

The date of Easter is determined by the ecclesiastical calendar of the Catholic church. It is a very complicated and elaborate affair invented by Lilius, a Neapolitan astronomer and sage, under Pope Gregory XIII., at the close of the sixteenth century. It would be preposterous to tax the brains of modern readers with the abstruse calculations by which the date of Easter is determined, but a few general rules might be given for their enlightenment.

The regulations of the council of Nice are four; Easter must be celebrated on a Sunday; second, this Sunday must follow the paschal moon; third, the paschal moon is that moon whose fourteenth day falls on or next follows the day of the vernal equinox; fourth, the equinox is fixed invariably in the calendar on the 21st day of March.

This calendar moon, it should be remembered, is not the work of the astronomers but is an imaginary moon created for ecclesiastical convenience. From these conditions it allows that Easter Sunday cannot happen earlier than the 22d of March or later than the 25th of April.

### SENT MACHINERY TO AFRICA.

Berlin Machine Works Receives an Order From Johannesburg.

The Berlin Machine Works, of Berlin, has received an order for a carload of planing mill machinery to be sent to Johannesburg, the Transvaal, South Africa. The order came through the American representative of the African concern.

Wheels Carry the Load.

You notice all kinds of statements concerning buggies, surreys, etc., and usually the most noticeable feature is the price; many claiming to furnish a superior rig for a very small consideration, etc., even naming a selling price that no reputable builder would estimate as cost of construction. But the price being the all-absorbing topic, he or her and more important points are neglected. Many a man pays just enough to get a poor rig. In purchasing, ask a few questions as to quality. The wheels for instance carry the load; ascertain who made them, are they first, second, third, etc., or are they beyond description such as are usually placed on a \$45.00 job. Also as to the gear, shafts, trimming, painting, etc. All are important and should have careful consideration. We are showing this week two new styles of top rigs, new Phaetons very handsome and sensible, made by Studebaker Bros. and Henney Buggy Co. Also the new and handsome survey made by Wisconsin Carriage Top Company. Will take great pleasure in showing our customers goods. F. A. Taylor.

## A BOY OPPOSES CIGARETTES.

Janesville Lad Speaks Before the Assembly Yesterday Afternoon.

A Madison dispatch to the Milwaukee Sentinel says: "A final hearing was given this afternoon on the Hurd anti-cigarette bill by the committee on public health and sanitation, of the senate."

"The feature of the meeting was the argument made for the bill by Master Harry Wheeler of Janesville, a page in the upper house. Master Wheeler is only 11 years of age, but he is old in wisdom and in legislative tact. He started out with the proposition that the cigarette was an evil, and that there was need of legislative enactment in order that the health of the land may be maintained. He said the state of Wisconsin wanted strong men, good and true. They could not in his opinion have such, were not the state to step in and put a ban upon the 'deadly cigarette.' Master Wheeler did not attempt to elaborate on the constitutional points of the bill, but he propounded several questions to several old-time lobbyists who appeared in opposition to the measure which made them think hard."

### INSPECTED KNIGHTS TEMPLAR

An Interesting Ceremony at Masonic Hall Last Evening.

## BOUND BY THE TIE OF LOVE.

Robbins-Crall.

At 5 o'clock this afternoon the words were spoken by the Rev. E. H. Pen e that united as husband and wife Miss Mate M. Crall of this city, and A. B. Robbins of Baraboo. The ceremony was performed at the home of the bride's father, Joshua Crall, 117 East Milwaukee street, and only relatives and a few invited friends were present. A sister of the bride is dangerously ill at Fontville; for this reason the affair was as simple as possible. The bride is well known in Janesville and is held in the highest esteem by a large circle of friends. Mr. Robbins is one of the best known and most popular passenger conductors on the Northwestern road and of late has made Baraboo his headquarters. This evening the happy couple will leave on the 7-20 train for Chicago and after a short wedding trip they will return to this city. They expect to reside in Baraboo.

## BEYOND THE CARES OF EARTH.

Mrs. J. H. Vankirk.

A telegram received this morning from Brooklyn, N. Y., by W. T. Vankirk conveyed the sad news of the death of Mr. Vankirk's brother's wife—Mrs. J. H. Vankirk. No particulars were given except that her death took place at 3:30 o'clock this morning. Two children are left to mourn her death. Her husband died a year ago last December. Mrs. Vankirk formerly resided in this city and is well known here. Her maiden name was Miss Hattie Miller and she was the daughter of Colonel Ezra Miller.

Isaac Garinger.

The Eureka, Col., Times publishes a notice of the death of Isaac Garinger, who passed away at that place on April 1, aged seventy-two years.

J. J. Boyd.

J. J. Boyd, a former merchant tailor of this city died last Wednesday at his home in Decatur, Texas, of paralysis.

## A Strange Legacy.

An original individual of Mons, who during his lifetime was fond of good living, has just died leaving a legacy of \$600 to five friends under the following extraordinary conditions: The legacy must be spent on dinners served at different restaurants, and the deceased had stipulated that at each meal a certain special dish and particular wine, of which he was very fond, shall be served, and that at dessert his memory shall be drunk. Furthermore, the five companions must dine in black clothes and black gloves, and must enter the dining room preceded by a flag and the music of an accordion. The first dinner took place at Brussels recently, and the injunctions were carried out to the letter. Of the five friends two are from Brussels, one from Antwerp, one from Mons and one from Charleroi.—Pall Mall Gazette.

## A Truly American Animal.

Prof. O. C. Marsh says that the researches of the last twenty years have confirmed the opinion that the animals called edentates, which include sloths, anteaters, armadillos, etc., originated in North America, and afterward migrated to other parts of the world. Some of the edentates of former times were creatures of immense size, such as the extinct glyptodon, whose great convex shell was remarkable for strength. "Why such a form as the glyptodon should have failed to keep his ground," says a distinguished naturalist, "is a great mystery; nature seems to have built him, as Rome was built, for eternity."

## Value of the Church.

Half the value of the country church is the social value. It is where the families of the country side meet and shake hands and compare notes. I used to like to see them assembled on foot, on horseback and in lumber wagons. The church was a meeting house—the country clubhouse.—Rev. M. W. Reed.

## A Nonagenarian Actress.

## TO PLAY BASE BALL

DEAF AND DUMB NINE TO COME HERE.

Players From the Delavan State School

to Meet the Janesville High School Athletes at Athletic Park on May 22—Other Games Scheduled For the Season.

Nine deaf and dumb boys will represent the state school at Delavan at a ball game in this city on May 22, and will play the high school team at Athletic park. The deaf and dumb scholars have formed one of the strongest school teams in the state. Other games which have been scheduled to take place in this city indicate one of the liveliest base ball seasons in the history of the local schools. Manager Hugh Hemmingsway has booked the following engagements: Whitewater High school on April 24.

Delavan deaf and dumb school on May 22.

Beloit High school on June 5. The home team will play at: Whitewater on June 12. Beloit May 19. Delavan May 1. Madi on May 8.

Among the scholars who may be members of the local team are: Henry Casey, Albert Bemis, Stewart Murwin, Collin Samuels, Boyd Nott, William Rogers, Lea Matthews, John Whifflo, R. Palmer, Joseph Kennedy, Ralph Boestel, Henry Scott, Henry Carpenter, Fred Palmer, William Dougherty, Theodore Smith and William Weisenc.

## The Oil-Fields of Peru.

It is anticipated that the supplies of petroleum from Peru will in the near future be phenomenal in their abundance. The principal field is in the department of Plura. Estimates have been made as to the area yielding the oil, one of them putting it as high as 7,200 square miles; as the Pennsylvania field is reckoned at some 350 square miles, and has given forth some 516,000,000 of barrels, the Peruvian promise is vast, the official statement showing that of forty-nine wells bored during the last four years, forty-four have been productive, a number of them yielding to the extent of 30,000 gallons per day. A London company has been working some of the wells with favorable results, and crude oil has for some time been used on the locomotives of all the Peruvian railways, also in several of the manufacturing establishments and in the gas works.

## A Cause Celebre.

There will shortly come before the courts for trial a will suit in which a claim to a sum of £9,000,000 will be made by a Welsh collier. The claim, in which the initial proceedings have just been taken, concerns the right to the Drymma estates, with an annual rent of £300,000, capitalized at £6,000,000. In addition, the litigant, if successful, would acquire the title of a sum of close on £3,000,000, at present lying in chancery. The claimant is Mr. Nathaniel Richard Thomas, a collier, and in all probability will be joined by his step-brother, Mr. David Meredith. Among the estates involved is the Maesgwynnes Hale estate, held by Mr. William Williams, ex-M. P. for Swansea, and Glyngollen, near Swansea, held by Mr. J. Davies. The property is situated in South Wales.

## In the Ocean's Depths.

The temperature at the bottom of the ocean is nearly down to freezing point, and sometimes actually below it. There is a total absence of light, as far as sunlight is concerned, and there is an enormous pressure, reckoned at about one ton to the square inch in every 1,000 fathoms, which is 160 times greater than that of the atmosphere we live in. At 2,500 fathoms the pressure is thirty times more powerful than the steam pressure of a locomotive when drawing a train.

## CONCERT OVER MILES OF WIRE

Wisconsin Telephone Company to Entertain the Public Saturday Night.

Over eighty miles of wire, sweet strains from Claunder's and Bach's celebrated Milwaukee orchestra will be heard in this city Saturday evening, and the public is invited by the Wisconsin Telephone company to attend this novel concert.

It will be the first of its kind ever given in this city. The Myers hotel has been selected as the concert hall and the admission and entertainment will be free.

T. J. Skolsky will arrive in the city this week for the purpose of making preparations for the event. Accommodations for sixty people at a time are to be made and while the men are to hear the music in the office, special accommodations are to be provided for the ladies, on the second floor.

"There will be no interference whatever," said Manager Willitz this morning. "A special wire is to be provided by the company for the Janesville concert."

Claunder's orchestra is now playing at the Schiltz palm garden and is considered one of the finest in the west. Bach's orchestra is stationed at the celebrated Pabst cafe. Similar concerts have been given in different parts of the state by the same orchestras, the sounds being distinctly transmitted over miles of wire. A. Green Bay over 3,000 people availed themselves of the opportunity.

The concert Saturday evening will be given between the hours of 8 to 12.

## A Noble Figure.

The present duchess of Wellington is a charming and accomplished lady and bears her physical affliction—a severe complaint—both gracefully and bravely, says an exchange. She was Miss Evelyn Williams before her marriage, her brothers being the well-known Gen. Owen Williams and Mr. Hwfa Williams and her sisters the duchess of Aylesford and the dowager duchess of Croyland. When Mr. Hwfa Williams was a bachelor his sister Evelyn kept house for him, and presided at his small but artistic dinners. When he was on the brink of marriage one or two of his intimate friends were asked by his sister Evelyn, who had a small independence, to look out for a little flat for herself and maid, but while they were trying to execute her little mission she suddenly, if not quite unexpectedly, became duchess of Wellington, with a command of Apsley house, Strathfieldsaye, and a palazzo in Portugal.

## Under the Impeachment Law.

Butler, Ind., April 14.—A great legal battle occurred here Tuesday over the attempt to impeach and remove from office County Commissioners Hague and Bateman and Auditor Boost. The case is the first one to come up under the new impeachment law, passed by the last legislature. Judge Marsh of Winchester, who was trying the case, decided in favor of the defense, as the acts under which the impeachment proceedings were commenced had been committed prior to the time the law went into effect. The bill of impeachment filed by the grand jury charged the commissioners with responsibility for a great deal of the fraudulent work in the county, whereby nearly \$50,000 has been stolen.

## Hurt by an Explosion.

Chicago, April 14.—Seven persons were injured during a fire which broke out last evening in the picture frame works of H. Zeunert & Brother, on the second floor of 106 and 108 West Washington street. An explosion of chemicals knocked down five firemen who were seeking to gain entrance to the room where the flames were located, and besides being severely bruised they were all more or less burned on the face, hands and body. In addition to this, another fireman and a police officer sustained slight injuries and burns. The financial loss was light.

## Rosebery in the Cabinet.

London, April 14.—Truth says: "It is doubtful if Lord Salisbury's health will permit him to retain the posts of premier and secretary of state for foreign affairs. Under the circumstances many Unionists are suggesting Lord Rosebery for secretary of state for foreign affairs. It is pointed out that when in office Lord Rosebery showed entire accord with Lord Salisbury's foreign policy, and he withdrew from the Liberals because he disapproved of their action in foreign issues, while his views on home rule are in accord with the Unionists."

## If the Baby Is Cutting Teeth.

Be sure and use that old and well tried remedy Mrs. Winslow's Soothing Syrup for children's teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. Twenty-five cents a bottle.

## RHEUMATISM.

Distorted Limbs, Swollen Joints, Painful Muscles and a Life that is Unbearable.

WHY CONTINUE TO SUFFER? RELIEF WITHIN THE REACH OF ALL. THE FAMOUS KICKAPOO INDIAN REMEDY CURES ALL PAINFUL FOR THIS MOST PAINFUL OF AFFLICTIONS.

WHEN one considers the exposure and hard life endured by the Indians from birth until old age, and reflects upon the fact that rheumatism is unknown to them it cannot be doubted but that their medicines must contain all powerful properties, which is certainly the case. The Indian preserves his perfect health by paying the greatest possible attention to his body. For years he has studied the art of healing and having become thoroughly conversant with nature's own remedies which she dispenses to him in the form of roots, barks and herbs, and which by experience he has learned to skillfully gather and combine so that at last he has succeeded in obtaining remedies which are recognized throughout the world as the most wonderful specifics for this most dreaded disease.

Kickapoo Indian Oil when applied externally relieves inflammation almost immediately, whereas their famous Kickapoo Indian Sagwa, that great blood, liver, stomach and kidney invigorator, dispels the cause of this trouble in a remarkably short space of time.

Rheumatism, as is a well-known fact, is caused by the accumulation of unhealthy acids in the blood, due to the improper action of some one or more of the great life-giving organs of the body. These when properly treated by such a remedy as Kickapoo Indian Sagwa are easily persuaded to resume their natural functions, and soon dispel from the system these poisons, leaving the patient free from pain, and in every way enjoying health. It should be remembered that none of the Kickapoo Indian preparations contain any poisonous ingredients, and they may be bought of any druggist Kickapoo Indian Oil 25 cts. a bottle Kickapoo Indian Sagwa \$1 a bottle, six bottles for \$5.

## AIR SHIP IS SEEN ABOVE THIS CITY

MANY PEOPLE SAW THE MID-NIGHT VISITOR.

Mrs. Morse, F. C. Haselton, C. M. Warren, C. M. Joss and Fred Clement All Say They Saw It While Evansville and Clinton Folk Were Also Favored with a Glimpse.

The airship has been seen by Janesville people, who insist that the object seen by them could not have been a star.

Mrs. Morse, who lives at the corner of Wisconsin and East Milwaukee streets saw the ship on Saturday night. She says it carried a bright light and ran on an irregular course. Mrs. Morse saw the ship while looking out of a window.

Frank C. Haselton also says that he saw the ship, which seemed to be high in the air above the Knipp brewery.

C. M. Warren, the C. M. & St. P. engineer also reports seeing the ship while Conductor C. M. Joss, of the St. Paul road has seen it.

Other people in Rock county have seen the ship, too. Friday night it was seen at Evansville and Saturday night—the same time that Mrs. Morse saw it—it was seen at Clinton. The people of that place say it came from the southeast, and was headed due northwest. It traveled at a very rapid pace, and varied its course considerably. Colored lights were shown and changed about. People who saw it said it could not possibly be a star. Its course was too erratic, and the lights were too plainly shown.

Seen at Evansville.

Evansville people saw the craft on Friday night. Charles Fuller, it is reported, first discerned the ship. The description given tallies with the stories of others who have seen the mysterious craft. That the object seen was not a star Evansville people are confident.

"I watched the ship for some time through the window," Mrs. Morse said in conversation with a Gazette reporter. "The bright light was the most conspicuous thing about it. I could not discern the form of the ship, but it rose and fell, and moved about rapidly."

Fred Clement also saw the ship on Sunday night. It passed over the city, traveling northward. Mr. Clement, who works in McDonald's restaurant, says that several other people saw it. The whole party stopped, and watched the ship until it disappeared from sight.

## DISCUSS WATER WORKS BILL.

Janesville, Oshkosh, and Beloit Men Favor the New Plan.

The Dennett "water works bill," which is now before the legislature, has attracted much attention and awakened much interest among the people, as it has been said that it was introduced at the behest of the water companies of the state. It provides that all waterworks corporations shall be taxed on the basis of their gross earnings, instead of in the present manner.

The bill was discussed yesterday afternoon, before the committee on state affairs of the senate, and speeches were made both for and against the measure. A. J. Turner and J. E. Jores of Portage, opposed the bill, while speeches in favor of the plan were made by Senator Dennett who introduced the bill, M. G. Jeffris of this city, W. G. Maxey of the Oshkosh water company, and Mr. Wheeler, the Beloit water works owner and contractor.

## TWILIGHT CLUB IN SESSION

Needs of the City Discussed at Last Night's Meeting.

The topic for discussion at the meeting of the Twilight club last evening was "Janesville's Needs—Commercial and Municipal." Attorney John Cunningham was the leader and H. O. Buell opened the discussion. F. C. Haselton spoke of the need of a grain market, and O. H. Brand read a paper on municipal reform, and non-partisan local politics. A committee consisting of D. D. Mayne, George G. Sutherland and F. S. Baines, was appointed to prepare the program for the next session, and Rev. Robert C. Denison was appointed as leader. The next meeting will be on the second Tuesday of October, 1897.

## GLAD M'KINLEY WAS NAMED.

Dr. Horne's Democratic Brother Writes From Australia.

Dr. William Horne has received a letter from his brother George R. Horne, of Melbourne, Australia, a lifelong democrat, in which he says: "I was as glad of McKinley's success as any American in the states. I think him a grand man and a man in the right place. May God grant him a happy and peaceful reign." The letter is an unusually interesting one and describes in closing, a mysterious mud storm which did thousands of dollars worth of damage in Melbourne.

## A MAN STRUCK BY A TRAIN.

Fellows Station Section Hand Has His Leg Broken and Back Hurt.

Herman Greaves, a section hand residing at Fellows Station, was struck by a freight engine near that station, Monday afternoon, and thrown quite a distance, breaking his leg and injuring his back severely. He had just hastily removed the hand car from the track and in his excitement stepped back onto the track when he was struck by the engine. Dr. Evans of Evansville, attended him.

## FIND BENWITZ DEAD AND STOVE LEAKING

ACCIDENT OR SUICIDE IN THE FOURTH WARD.

Aged Mason Discovered Lifeless By Neighbors Who Became Alarmed Because They Had Not Seen Him—Lid Was Off the Coal Heater—Police Force the Door.

August Benwitz was found dead in bed at his home in the Fourth ward this afternoon.

A misplaced lid on the coal stove told of the manner of his demise, and the fatal gas had done the work.

Benwitz lived at 354 South Academy street, and was a mason by trade.

August Lutz lives in the next house. The Lutz family had not seen Benwitz all day, and finally decided to go to the house.

When the door was opened, Benwitz was found dead on the bed.

The stove had evidently leaked gas, as one of the lids was found to be out of place. Whether or not death was accidental, was a matter of some speculation, and some of the neighbors thought it was a case of suicide.

Chief Hogan was notified by telephone, and he and Officer Appleby at once took charge of the case, and forced the door.

Benwitz was about sixty-five years of age.

## TERRILL IS KNOWN TO LOCAL PEOPLE

MINERAL POINT MAN HAS JANESVILLE FRIENDS.

They Contend That the Man Who Will Be Tried On a Murder Charge In Judge Bennett's Court, Is "An All Around Good Fellow"—The Alleged Crime.

Stephen Terrell, who is to be brought here from Mineral Point for trial on the charge of murder, has numerous friends in this city who went to school with him but a few years ago. Terrell was brought up and lived the greater portion of his life in Iowa county. He is spoken of by his local friends as an "all around good fellow," and is now but twenty-four years of age.

But a short time previous to the murder, he entered the employ of a relative in Mineral Point in the capacity of bar tender in a saloon. It was on St. Patrick's day that the murder took place. Several theories are advanced as to the cause of the shooting. Some say that two men entered the store and that during a fight that ensued young Terrell tried to separate the men. During the scuffle a gun was discharged and from the effects of the shot, John Quirk died. Others say that Terrell ordered the men from the place and on their refusal to go shot at them. Numerous inquiries have been received at the jail from Terrell's friends in this city who are anxious to know when he is to arrive in the city.

## T. S. JESSUP GIVEN A WATCH

Foreman of the Green Warehouse is Handsomely Remembered.

J. L. & M. F. Greene's Janesville warehouse closed today, the season's work being concluded. Since Dec. 10, this enterprising firm has put up upwards of 5000 cases of leaf. The foreman of the warehouse T. S. Jessup was presented with a handsome watch while all the other employees received presents. The firm's Milton warehouse closed a week ago.

The books show that the firm's payroll has averaged \$534 per week for all the time the warehouse was in operation.

## SANFORD OWNS UP TO HIS MISDEEDS

MAN WHO SWINDLED VALENTINE BROS. CONFESSES.

Admits His Guilt, and Says That He Is a Cleveland, Ohio, Business Man—Partner and Wife Knew Nothing of His Wrong Doing—To Be Tried At Fort Wayne.

H. J. Sanford, the man who swindled Valentine Bros. with a raised draft, and who was caught at Jamestown, N. Y., confessed yesterday that his real name was C. F. Moore, and that he is the manager of the United States Fuel Economizing Company at 1006 Woodland avenue, Cleveland.

Investigation shows this to be true, and that his wife and partners knew nothing of his forgeries, supposing his frequent trips out of the city were in the interest of the company, which was just being started.

Moore was taken to Fort Wayne, Ind., by a Pinkerton detective, there to stand trial on several charges of forgery. Before leaving he acknowledged that he had been engaged in forgeries and raising bank paper for the past five years. The detective who came for the prisoner had with him \$9,000 in raised drafts, which had been realized on. The prisoner acknowledged that all of them were his work.

R. Valentini has received a letter from the Pinkerton agency, saying that Sanford will be tried at Fort Wayne first.

**"THE BELL HANGER."**

AN IMPORTANT FUNCTIONARY OF THE WHITE HOUSE.

Garret A. Hobart, Jr., Son of the Vice-President Will Hold the Position for the Next Four Years—He is an Expert Electrician.

**G**ARRET A. HOBART, the 12-year-old son of the new vice-president, has been appointed official bell hanger of the White House by President McKinley. Young Hobart is an adept in electricity, and he was the first applicant for the office after the inauguration. He had an eye to business and made a business proposition to the president. After looking into the matter with great care the president found out that he could save considerable money by letting the contract to young Hobart, and so the young electrician and his partner, Ned Van Riper, were given charge of the White House bell hanging. Hobart, Jr., began his career as practical electrician by "wiring" his father's house so thoroughly that a bell would ring whenever anyone as much as coughed. The servant girl could light the kitchen fire by touching a button on her bedhead, and the bulldog was released whenever a window was opened after dark. His business career began when the neighbors of the Hobarts hired the boy to protect and equip their houses in a similar fashion. The work of Garret A. Hobart, Jr., & Co., was as scientific as that of the best electricians, and as it was fearfully and wonderfully cheap as compared with that of the professionals, the boy firm thrived at Paterson. It is expected that President McKinley and his family will have all the bell ringing they want in the White House if Ho-

**GARRETT A. HOBART, JR.** Hobart, Jr., & Co., are allowed to give the good measure they will naturally desire to give to their distinguished patron. Master Hobart did not plead his relationship to the vice-president when he asked for the work. He pointed out to President McKinley the necessity of having his house properly "wired," and his bid was so low that the president closed with him at once. There are other houses in Washington, and as young Hobart is to remain in the capital four years, it may be expected Washington will soon be the most elaborately electrically equipped city in the country.

**The Snow-Melting Chinook.**

In the Northwestern states a peculiarly warm, dry wind, called the Chinook, which has a wonderful power of "eating up" snow, occasionally prevails, and a remarkable visitation of this wind occurred in Oregon and Washington last December. Professor Ward, writing in Science, calls attention to the close resemblance between the Chinook winds of the Cascade and Rocky Mountain regions and the celebrated foehn winds of the Alps. Both blow down from the mountain ranges, and both produce effects, in the sudden liquefaction of snow, that are almost marvelous. There is no mystery about them, although they require particular conditions of atmospheric pressure, combined with certain effects arising from the position of the mountains with respect to the isothermal lines, or lines of equal temperature.

**Modernizing the Pyramids.**

Commenting on the fact that a trolley road is about to be built to the foot of old Cheops, the Cairo (Egypt) Sphinx says: "Next there will be a restaurant on the top of that giant pile and a hydraulic lift to carry one to the top. The times are indeed changed, and we with them. 'Drink Cheops bitters!' 'Pyramid beer is the best!' 'After visiting Shufu's tomb, take Parasyneraterkolopoulo's brandy!' These and others will greet the eyes of the visitors to the pyramid next year. The fates forbend, and may the Society for the Preservation of Egyptian Antiquities forbid! Oh, Caireness, if you wish to disgust the best class of visitors you are going the right way to do it."

**Everything Goes Wrong**

In the bodily mechanism when the liver gets out of order. Constipation, dyspepsia, constipation of the blood, imperfect assimilation, are certain to ensue. But it is easy to prevent these consequences, and remove their cause, by a course of Hostetter's Stomach Bitters, which stimulates the biliary organs and regulates its action. The direct result is a disappearance of the pains beneath the ribs and through the shoulder blade, the nausea, headache, yellowness of the skin, furred look of the tongue, and sour odor of the breath, which characterize liver complaint. Sound digestion and a regular habit of body are blessings also secured by the use of this celebrated restorative of health, which imparts a degree of vigor to the body which is a best guarantee of safety from malarial epidemics. Nerve weakness and over tension are relieved by it, and it improves both appetite and sleep.

**THE LOCOMOTIVE ENGINEER.**

His Sweetheart's Red Hair Acted as a Signal in Time of Danger.

A locomotive engineer should be one of the most truthful men, says the Washington Star. That's why this little story of a southern engineer should be believed implicitly.

"You may talk as you please about red-headed women," he was saying to a group of listeners, "but a red-headed woman saved my life and established a home for herself all at once. I was 25 then and running a freight on the Chesapeake & Ohio in the West Virginia mountains, where it took talent to run an engine. My division ended at Hinton and a red-headed girl lived six miles to the east, where there was a siding near a big cut and fill, and it was a bad place, as the road was new. "The girl's name was Maggie Conroy and she had the reddest head I ever saw on a human being's shoulders outside of a torchlight procession. But I didn't care for that and I did care for Maggie. One sunshiny day I was coming down the track with a stock train loaded with some extra fine cattle and sheep and I had in the caboose three of the owners. It had been raining and washouts were looked for, but I hadn't seen any and was bowling along at a good speed when all of a sudden at the curve I thought I saw a red light rising just over the track. It seemed to shine like a blaze in the track and before I took time for a thought I had shut off the steam, whistled down the brakes and was doing my best to stop.

"Right then my fireman gave me the ha ha in a way to chill the blood in the veins of a man who can't stand teasing and I took a look forward and found that the red light I thought I saw was only Maggie's head of red hair sticking up in advance as she pulled herself up the steep embankment to get on to the track. With an oath I opened everything again, but as I did so Maggie threw up her hands and dropped in a dead faint by the track and I stopped off everything again, for I felt sure that something was wrong. I had half an hour or so leeway between trains and I took Maggie up as quickly as I could to find out what was the matter. She came around mighty soon, because she had fainted from overexertion, and she told me how a big bowlder had fallen on the track in a curve near her house that I wouldn't have seen till it was too late to stop and she had run across the spur of the mountain to stop me in time if she could.

"That's what she was trying to do when her red head shone like a danger signal and stopped me. Later the owners of the stock gave her money enough to buy a nice little house at Hinton and six months later I moved in. We've got the house yet, but we don't live in it," concluded the engineer, "for it wasn't big enough for a family of six children and not a red-headed one in the lot."

**Woman's Influence of Old.**

A writer in Mother's Journal is not of the opinion that women are now, for the first time, of account in society. She writes:

"Women are new in literature and journalism. Are they? Only the other day, in a jug dug from the ruins of ancient Greece, was found what must have served for a daily paper in those days, and a woman was one of the writers.

"Have you any idea that the old Egyptians doubted for one minute the political power of woman as they watched the career of Cleopatra?

"Was Miriam's music less inspiring to the Hebrew warriors because she was a woman?

"Any one might suppose from the clamor and to-do that we were for the first time of account in the world, when, as a matter of fact, we have been a power—for good or evil—socially, politically and morally—since the days of Eden."

**A Rain of Cheques.**

An enterprising English firm who manufacture a well known preparation for the hair, have hit upon a rather unique method of advertisement to be carried out during the Queen's Jubilee celebration next summer. They have made arrangements for a balloon ascension which will take place near London on May 13. While the balloon is passing over the city a cheque for £1,000 payable to the finder will be dropped from it. Other ascensions will follow and cheques for smaller amounts will be dropped in all the large towns throughout England, Ireland and Scotland, the dates being previously advertised in the local papers.

**"Saint George" War Cry.**

"St. George for Merry Abyssinia" will take the place of the older war cry. A Russian painter has just completed for Negus Menelek a picture of the battle of Adowah, in which St. George on a white charger is represented to help the Abyssinians to rout the Italians. The story of the saint's appearance has arisen from the fact that the Italians turned a church dedicated to him near the town into a cavalry stable.

**The Typewriter Touch.**

Now that typewriters are found in houses almost as commonly as the writing desk, it is perhaps pertinent to remind women that the use of the machine is very hurtful to a piano player. The sharp staccato movements of the writing machine stiffen the fingers and tend to lessen the suppleness necessary for the piano keys.

**Doing and Believing.**

I know what a man believes by what he does. His orthodox professions do not count in his life as such as to make the Savior hang his head for shame.—Rev. F. M. Goodchild.

Americans are the most inventive people on earth. To them have been issued nearly 600,000 patents, or more than one third of all the patents issued in the world. No discovery of modern years has been of greater benefit to mankind than Chamberlain's Colic, Cholera and Diarrhoea Remedy, or has done more to relieve pain and suffering. J. W. Vaughn, of Oacron Ky., says: "I have used Chamberlain's Colic Cholera and Diarrhoea Remedy in my family for several years, and find it to be the best medicine I ever used for cramps in the stomach and bowels. For sale at C. D. Stevens' Pharmacy, corner Main and Milwaukee streets.

Mrs. A. Inveen, residing at 720 Henry street Alton, Ill., suffered with sciatic rheumatism for over eight months. She doctored for it nearly the whole of this time, using various remedies recommended by friends, and was treated by the physicians, but received no relief. She then used one and a half bottles of Chamberlain's Pain Balm, which effected a complete cure. This is published at her request as she wants others similarly afflicted to know what cured her. The 25 and 50 cent sizes for sale at C. D. Stevens' Pharmacy, corner Main and Milwaukee streets.

Two years ago, R. J. Warren, a druggist at Pleasant Brook, N. Y., bought a small supply of Chamberlain's Cough Remedy. He sums up the result as follows: "At that time the goods were unknown in this section; today Chamberlain's Cough Remedy is a household word." It is the same in hundreds of communities. Wherever the good qualities of Chamberlain's Cough Remedy become known the people will have nothing else. For sale at C. D. Stevens' Pharmacy, corner Main and Milwaukee streets.

### \$2.85 Tan Shoe.

It is of stock and make which it would be impossible to buy for less than \$3.50—seems a high figure, but the shoes bear out the assertion. Our \$3.50 line cannot be duplicated in the city for less than \$4.00; a comparison all we ask for verification. Our \$4.00 line is, well, simply a dream; \$5.00 would be but a fair figure to ask for them. Its the cash system we adopted last year that makes us to make lower shoe prices than the city ever saw.

**Every Man,** perhaps, has his Easter suit ready. How about the shoes? Don't start out the spring season incomplete. A \$6.00

## SENATOR CORBETT.

SUCCESSOR TO HON. JOHN H. MITCHELL.

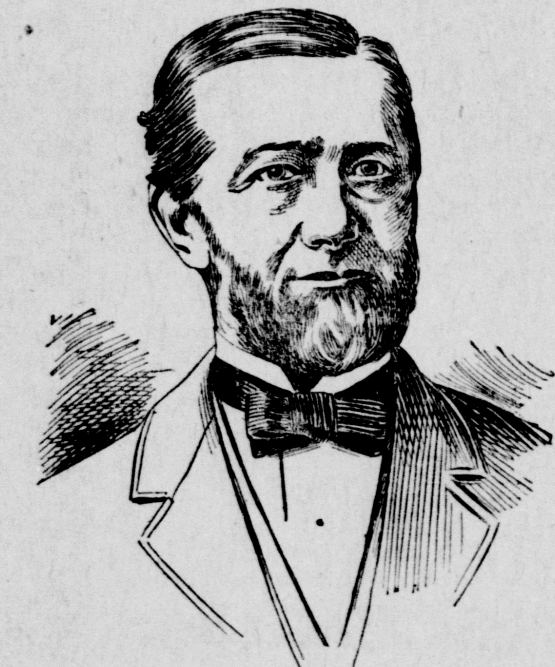

His Selection Marks the Close of a Remarkable Session of the Legislature—A Sketch of His Life—His Second Term in the Senate.

HE most remarkable senatorial contest in the history of Oregon was recently brought to a close by Governor Lord appointing Hon. Henry Winslow Corbett to succeed John H. Mitchell, whose term of office expired March 4. The case has no parallel in the history of the country. By the constitution of Oregon, the legislature convenes biennially, and the pay of members is limited to forty days, which is ordinarily supposed to limit the session.

On Jan. 11 last the legislature convened. The senate promptly organized, but the house failed to secure an organization, although in session fifty-one days. There was neither legislation nor a United States senator elected. There having been no legal session of the legislature, Governor Lord holds that there is a vacancy, which may lawfully be filled by appointment, under that clause of the Federal constitution which says: "If vacancies happen by resignation, or otherwise, during the recess of the legislature of any state, the executive thereof may make temporary appointments until the next meeting of the legislature, which shall then fill such vacancies." Acting on this supposition, he has appointed a man in whom the gold standard Republicans of Oregon have entire confidence.

Mr. Corbett was born in Westborough, Mass., on Feb. 18, 1827. He was

SENATOR CORBETT.

the youngest son in a family of eight children. His early boyhood was spent in Washington county, New York, where he attended the public schools. Later he attended Cambridge academy, taking the regular academy course. He then held a clerkship in Salem, the county seat, for one year, when, at 17 years of age, he went to New York city and was employed in the dry-goods business until 1851. His employers intrusted him with a stock of goods which was shipped around Cape Horn to Portland in 1850, the agreement being that he should devote three years in Oregon to merchandising, then return, and divide the proceeds. He sailed from New York on Jan. 20, 1851, via the isthmus, and arrived in Portland on March 5, where he found about 400 inhabitants. So well did he succeed in his venture that his entire stock of goods was disposed of in fourteen months, when he returned to New York with \$20,000 net profits for division. After remaining one year in New York, he returned to Oregon, where the remainder of his life has been spent. In early life Mr. Corbett was a Whig and a great admirer of Henry Clay. He assisted at the organization of the Republican party in Oregon, and was chairman of the first state central committee. He was a delegate to the Chicago convention in 1860, but was unable to reach there in time. So Horace Greeley represented the state. He attended Lincoln's inauguration in 1861, and was a delegate to the Republican convention that nominated Grant and Colfax in 1868. In 1866 he was elected United States senator to succeed Hon. J. W. Nesmith, and became prominently identified with the financial discussions of the time. During and after the war the gold standard was maintained on the Pacific coast, and Mr. Corbett invented the idea of national gold banks. The First National bank of Portland was organized in 1865, and in 1868 he, with Henry Felling, obtained control of the stock, and it has ever since been the strongest national bank in the Pacific Northwest. He assisted in the organization of the board of trade, and was its president for many years. He is president of the Boys and Girls' Aid society and of the Hotel Portland. He is a director of the Oregon Railroad and Navigation company, was the first in the senate to advocate the building of the Northern Pacific railroad, is an active worker in benevolent matters, has liberally endowed various Oregon institutions, and is interested in everything that tends to improve the condition of the community. He is one of the history-makers of Oregon, having been prominently identified with her institutions from their very beginning, and no history of the state can be written without marks of his influence on every page. In 1867 he was married to Miss Emma L. Ruggles of Worcester, Mass., a lady of high character, charming manners and rare intellectual attainments. He is universally respected for his ability and irreproachable life.

Has an Easy Time.

They had been discussing what they would like to be when they became men and women, and the little fellow with the red hair had listened scornfully to the various views expressed.

"You all don't know nothin' about havin' a good, easy time," he said when it came his turn to speak. "If we want to get along 'thout workin' or doin' anything except just takin' the best there is there ain't nothin' like bein' a kleptomaniac."—Chicago Post.

**The Big Line Is Here.** The line so many ladies have been waiting for came by express Saturday evening, and will be in stock and on sale Monday morning. This line of 185 pieces consists of the very swellest things in Suits, Skirts, Capes and Jackets, which in connection with the big purchase of a New York line made from the representative in Chicago on Friday, will give us a showing of garments second to none in the state.

**All the World Around.** The swish of the silken skirt will sound this season. It is the sensible fad of the year. The sheen of its gimmering fold and the sound of its tune-ful sweep will be seen and heard wherever fashion has a friend or follower. As usual, we assist our friends to their heart's desire. We bring silk skirts close to you by the re-

markably low prices we are enabled to make on these two sample lines -- prices which mean a saving of at least one third.

**Easter Millinery.** Buying no longer causes bankruptcy in this community. The man who writes jokes about the fabulous prices of Easter bonnets would find no foundation in fact for his yarns in this store. Easter Millinery is seen here at its best, but that does not mean exorbitant prices by any means. In fact next to the charm of exclusive style, which makes our millinery so desirable, comes the moderate price inducement. "Look here before you buy," is hackneyed, but very good advice.
